DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 20 recites the limitation "spring like structure" in line 2. It is not clear what does it means by "a spring like structure". Clarification is required.

Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not clear what does it means by "drug amount will be more at edges of stent, especially the proximal edge". Clarification is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 20 is rejected under 35 U.S.C. 101 because from the disclosure, one of ordinary skill in the art can not know how to construct a balloon catheter wherein a part of the shaft is replaced by a spring/spring like structure. Without further detail of the construction of the balloon catheter, the disclosed invention is inoperative and therefore lacks utility. Correction is required.
